

Final paving streets within Sections 5&7 on the east-side of Leeland Station.

K. Hovnanian will commence with the final paving of the remaining streets within sections 5&7, which is scheduled to begin Monday, December 3rd. The work will continue for several days until completed.

The streets include:

Colemans Mill Dr.

Rice Rd.

Canberra Ct.

Crovo Ln.

Brisbane Ct.

Elmont Ct.

Woodford Dr. (end)

Perth Dr. (Estates)

The streets will remain open with limited access during the paving operation. Please **drive slowly** and **be cautious of the workers.**

Unfinished paving will resume the next business day if there are any unforeseen delays, or postponement due to weather conditions, such as rain, or low temperatures.

Parking will not be allowed on the affected streets between the hours of 8am and 5pm during the paving operation.

A tow truck will be used to relocate any vehicle(s), at the owner's risk, that are parked on the street impeding the paving operation.

Any towed vehicles will be relocated to a nearby street in the community, but outside of the paving area.

Additionally, the repair of cracked sections of the concrete curb & gutter began on Tuesday, Nov. 27th, in preparation of the final paving.

The concrete work will continue for several days. After the final paving has been completed, there will be some additional replacement of damaged public sidewalk along the same streets.
